RE: Proceeding 16-106 - Protecting the Privacy of Customers of Broadband and Other  
Telecommunications Services

Dear Chairman Wheeler,

I see that you recently proposed new "privacy"\_ regulations to protect consumers from online companies, but noticed something curious: Google gets a free pass!

You know as well as anyone that Google knows more about us than any company in the world. More about our personal shopping habits; what we watch on the Internet; and how we live your lives.

And now they're even collecting our DNA!

Do not take Americans as fools, Chairman Wheeler. Your so-called privacy rules do nothing to secure our privacy when they give a free pass to the worst privacy violator in history.

And this isn't the first time Obama's friends have been protected. When you passed the largest government takeover of the Internet in history, Google got a free pass from following those rules, too.

Why are you going out of your way to protect Google? Could it be because Google is Obama's biggest corporate patron? Could it be because Google and the federal government work so closely on so many projects?

You've seen the recent news no doubt: Regular meetings at the White House. Hundreds of employees going back and forth between Google and the Obama Administration, including at least 9 between Google and your FCC!

---

Americans have noticed and we're disgusted.

This is just another of the LONG LIST of the MANY things he has done against the best interests of the American public

He NEEDS to be reigned in and KICKED out of that high office of President of America because we can NOT stand any more of his IDEA of Utopia and the LOSS of ALL of OUR FREEDOMS.

Sincerely,  
Donald Mccormick
